4. **Acceptance** The acceptance of any Tender shall be accompanied by sufficient information in writing to enable the Tendering Company, in its reasonable opinion, to proceed with the execution of the Contract forthwith, failing which the Tendering Company shall be entitled to amend the Contract Price to cover any increases in cost to it incurred as a result of such delay.
5. **Packaging** Unless otherwise specified in writing, the Contract Price included packaging in accordance with the standard packaging practices of the tendering Company.
6. **Limits of Contract** All Tenders include only such Products, accessories and Services as are specified therein.
7. **Drawings, etc.** All descriptive and shipping specifications, drawings, designs, illustrations, models, photographs and particulars of masses, dimensions or other technical data submitted with any Tender by the Tendering Company are approximate only, and the descriptions and illustrations contained in any catalogues, price lists and other advertisement matter of the Tendering Company are intended merely to present a general idea of the Products and Services described therein and none of the aforementioned shall form part of the Contract. After acceptance of any Tender by the Buyer, a set of certified outline drawings shall be supplied by the Tendering Company to the Buyer as appropriate in accordance with the contract. Any specifications, drawings, designs, illustrations, models, photographs, particulars of masses, dimensions or any other technical data submitted by the Buyer to the Tendering Company in terms of this clause 7 shall be kept confidential and shall not be copied, reproduced, sold, disposed of, disclosed to or handed to any third party without the prior written consent of the Tendering Company nor shall such information be used for the Buyer’s or anyone else’s benefit.
8. **Inspection and FAT tests** The Products are carefully inspected and, where practicable, submitted to that company’s standard tests at works before despatch. If tests other than those specified in any Tender or tests in the presence of the Buyer’s representative are requested by the Buyer and agreed to in writing by the Tendering Company, the Tendering Company shall be entitled to charge for the cost of such tests in addition to the Contract Price. In the event of any delay or failure on the part of the Buyer in attending any tests referred to in this clause 8 after 3 (three) days prior written notice from the Tendering Company that it is ready to conduct such tests, the tests shall be conducted by the Tendering Company in the Buyer’s absence but shall be deemed to have been conducted in the Buyer’s presence.
9. **Performance** Any performance figures or statistics given by the Tendering Company in any Tender are based upon its experience and are such as it expects to obtain on test in its works. Should any Products fail to satisfy such performance figures, the Tendering Company shall not be liable for any loss or damage thereby sustained by the Buyer as a result of such failure unless the Tendering Company has specifically guaranteed such performance figures (subject to the recognised tolerances applicable to such figures) in an agreed sum as liquidated damages in the Tender, in which case the liability of the Tendering company shall be strictly limited to the amount so stated in the Tender. Subject to clause 28, before the Buyer becomes entitled to reject the Products or raise any claim whatsoever arising from the failure to attain the applicable performance figures referred to in clause 10, the Buyer shall afford the Tendering Company reasonable time and opportunity to rectify the performance of the Products and the Tendering Company shall be entitled, at its option, to replace the affected Products or the defective parts thereof at the initial place of delivery. The Buyer acknowledges that Products stipulated by the Buyer are sufficient and suitable for the Buyer’s purpose save insofar as the Buyer’s stipulations are in accordance with the advice of the Tendering Company.

10. **Operating instructions and Procedures** The Buyer agrees to comply with all procedures, steps and instructions specified by the Tendering Company in writing from time to time in connection with the use and operation of the Products to ensure that Products are safe and without risks to health when properly used. The Buyer acknowledges that such written instructions may be included in any operating manual provided by the Tendering Company to the Buyer from time to time.
11. **Delivery** Delivery of Products shall be made by the Tendering Company at the place specified in the Tender and excludes offloading unless otherwise agreed in writing. The Tendering Company shall have the right to effect part-deliveries. Each delivery or part-delivery of an order shall be deemed to be sold under a separate contract. Neither failure on the part of the Tendering Company to make any delivery or part-delivery in accordance with the Contract nor any claim by the Buyer in respect of such delivery or part delivery shall entitle the Buyer to reject the balance of the order. Risk in the Products shall pass from the Tendering Company to the Buyer on delivery but ownership in any Products delivered shall remain vested in the Tendering Company until the entire Contract Price has been paid by the Buyer in terms of this clause 11 (whether affixed to immovable property or to other goods or products) shall be deemed to remain movable property and severable without injury to such immovable property or other goods or products, as the case may be. Should the Buyer fail to give the Tendering Company forwarding instructions in writing within 7 (seven) days after receipt of written notification from the Tendering Company that the Products are ready for despatch or fail to take delivery after the Buyer has given the Tendering Company written forwarding instructions, all risk in the Products shall immediately pass to the Buyer and the Tendering Company shall be entitled to arrange storage either at its own works or elsewhere on the Buyer's behalf and all charges thereby incurred by the Tendering Company as a result of such failure by the Buyer, including without being limited to, storage costs, insurance or extra delivery charges shall be for the Buyer's account. Notwithstanding anything to the contrary in this clause 11, should the Buyer fail to take delivery within a reasonable time after the Tendering Company has by notice in writing requested the buyer to do so, the Tendering Company shall be entitled to terminate the Contract and recover from the Buyer any loss suffered by reason of such failure.
12. **Liability for Delay** Any times quoted for delivery of Services or Products in any Tender are dependent upon the Tendering Company receiving all necessary information, drawings and documentation from the buyer to enable the Tendering Company to commence work in respect of the Tender and to proceed therewith without interruption. The Buyer shall provide the Tendering Company, in a timely manner, with all such information and materials as are necessary for the Tendering Company to carry out the Services and/or provide the Products in accordance with the Contract and the Buyer represents and warrants that all information provided by it or on its behalf to the Tendering Company will be accurate and complete. Any times quoted for delivery in any Tender are estimates only and the Tendering Company shall only be liable for late deliveries if the Tendering Company has explicitly agreed in the Tender to pay liquidated damages for any loss or damage for any loss or damage sustained by the Buyer as a result of such late deliveries, in which event the liability of the Tendering Company shall be limited to the delay portion only and then also to the amount so stated in the Tender. Should no such amount be stated in the Tender, the liability of the Tendering Company in terms of this clause 12 shall be limited to a maximum of 5% (five percent) of the Contract Price, and the payment of liquidated damages shall be the Buyer's sole remedy for delay. Notwithstanding anything to the contrary in this clause 12 and whether a time for delivery is stated in the Tender or not, the time for delivery shall be extended by a reasonable period if delay in deliveries is caused by instructions or lack of instructions from the Buyer or by any cause whatsoever beyond the reasonable control of the Tendering Company. The Contract shall not be cancelled by the Buyer on the ground of delay of the Tendering Company in effecting delivery in terms of the Contract unless the Tendering Company shall first have received written notice of the Buyer's intention to insist on adherence to delivery dates stated in the Tender.
13. **Variations** The Tendering Company shall not be obliged to accept any variations, modifications, alterations or additions to any Tender if such variations, modifications, alterations or additions are requested after the date of acceptance of the Tender by the Buyer in terms of clause 4. No variations, modifications, alterations or additions to any Tender shall be of any force or effect unless agreed to in writing by the Tendering Company. Subject to this clause 13, should any variation or suspension of work result from the Buyer's instructions or lack of instructions, the Tendering Company shall be entitled to increase the Contract Price by a sum of money reasonably sufficient to cover all additional associated expenses thereby incurred or sustained by the Tendering Company as a direct or indirect consequence of such variation or suspension.
14. **Payment, Terms of Payment** Unless otherwise stated in any Tender or otherwise agreed in writing, (a) the Contract Price shall exclude any value-added tax payable in accordance with the Value Added Tax Act, 1991; (b) the Contract Price shall be paid by the Buyer as follows:  
*Cash against invoice* : payment in full in respect of the Products or Services shall be due by the Buyer on presentation of invoices to the Buyer and notifications to the Buyer from the Tendering Company that the Products have been delivered or the Services have been rendered, or, if for any cause beyond the reasonable control of the Tendering Company, the Tendering Company is unable to deliver the products or to provide the Services, as the case may be, then upon presentation of invoices to the Buyer and notification from the Tendering Company to the Buyer that the relevant Products are ready for dispatch or the Tendering Company is in a position to render the Services; or  
*Progress payments* : progress payments shall be made in accordance with the Contract.  
 Notwithstanding the provisions of this clause 14, the Tendering Company shall be entitled to call for security of any kind whatsoever in a form reasonably acceptable to the Tendering Company for payment of all amounts payable by the Buyer to the Tendering Company in terms of this clause 14. If the Buyer fails to make payment in accordance with the Contract or fails to comply with any provisions of the Contract, the Tendering Company reserves the right to cancel any undelivered portion of the Products or to suspend the provision of Services, and the Buyer shall remain responsible for the completed and partly completed work up to the date of such cancellation. Any payments by the Buyer in terms of this clause 14 shall not be set off against or withheld on account of any counterclaims, unless such counterclaims have been admitted by the Tendering Company in writing. Any liability of the Tendering Company in terms of the Contract is subject to the Buyer adhering to the terms of payment of the Tendering Company in terms of the Contract and the fulfilment of all the other obligations of the Buyer in terms of the Contract. Without prejudice to the right of the Tendering Company to payment in terms of this clause 14, the Buyer shall pay interest on any sum due to the Tendering Company at the ruling prime lending rate as confirmed by the Tendering Company's bankers plus 2% (two percent), from the due date of such payment until payment is actually made. The Buyer shall pay any amount due to the Tendering Company in terms of this clause 14 by way of electronic transfer into the current account designated by the Tendering Company in the Tender for that purpose, unless otherwise agreed to in writing by the Tendering Company. Notwithstanding anything to the contrary herein, and without prejudice to any other rights it may have pursuant to the Contract, the Tendering Company shall be entitled to retain possession of any of the Buyer's equipment serviced by the Tendering Company until all of the Tendering Company's fees for such Service have been paid in full by the Buyer. Should such fees not be paid in full within 90 days of presentation of invoice, the Tendering Company shall be further entitled to sell the relevant equipment on such terms and conditions as it may determine to defray any outstanding fees due to it.
15. **Warranty** In carrying out the Services, the Tendering Company shall use its reasonable endeavours to undertake the Services in accordance with good market practice and within the time period agreed between the parties in the Contract and at all times exercising reasonable skill and care. Subject to what follows, the Tendering Company shall make good, by repair or, at its option, by the supply of a replacement, defects which, under proper use, appear in the Products and which defects are notified by the Buyer to the Tendering Company in writing within a period of 12 (twelve) months after the Products have been delivered to the Buyer or, if delivery is delayed for any reason other than as a result of default on the part of the Tendering Company, within a period of 18 (eighteen) months after receipt of written notice by the Buyer from the Tendering Company that the Products are ready for despatch (whichever period expires the earlier) and arising solely from faulty materials or workmanship or design (fair wear and tear excluded); provided that should the Tendering Company request the Buyer to do so by notice in writing, the Buyer shall return such defective parts to the Tendering Company within the time period stated by the Tendering Company in such notice. The Tendering Company shall not be liable for any other costs, expenses or losses, save for the cost of the repair or replacement of the Products, as the case may be, which may be incurred by the Buyer in returning the defective Products to the Tendering Company in terms of clause 15. Should the Buyer elect to have any other party effect repairs of the Products, it shall forfeit any and all right it might have had in terms of the Contract

to have the Tendering Company effect those repairs, and the Tendering Company shall accordingly have no further liability to the Buyer in relation to those Products. The liability of the Tendering Company in terms of this clause 15 in connection with its Products and the Services shall be *in lieu* of any warranty or condition implied by law as to the quality or fitness for any particular purpose of the Products or Services and, save as provided in this clause 15, the Tendering Company shall not be under any liability, whether in contract, delict or otherwise, in respect of or for any injury, damage or loss resulting from such defects or from any work done or Services rendered in connection therewith. In respect of parts or components not manufactured or designed by the Tendering Company, the Tendering Company guarantees such parts or components provided that such guarantee shall be equivalent to the guarantee (if any) which the Tendering Company may have received from the supplier or manufacturer of such parts or components in respect thereof and shall not, in respect of such parts or components, impose on the Tendering Company a liability greater than that imposed on the Tendering Company by the provisions of this clause 15. Any and all warranties and representations given by the Tendering Company are "person specific" in that any such warranties and representations are personal and may not be sold, ceded or otherwise transferred without the Tendering Company's express prior written consent.

16. **Consumer Protection Act** The Buyer undertakes to notify the Tendering Company in writing forthwith should it on-sell or supply any Products supplied by the Tendering Company to it pursuant to the Contract to "consumers" (as that term is defined in the Consumer Protection Act). Notwithstanding anything to the contrary in these Conditions, the Buyer indemnifies and holds harmless the Tendering Company from and against any and all claims, actions, liabilities, damages, costs and expenses (collectively "losses") asserted against, imposed upon or incurred by the Tendering Company (a) as a result of or arising out of the Buyer breaching the aforesaid undertaking, or (b) from any harm alleged or proven by a consumer himself, or other person contemplated in section 4(1) of the Consumer Protection Act, to the extent such harm is attributable to the negligent or intentional conduct of the Buyer or any contravention of the Buyer of any applicable law, where the Buyer is not able to prove that it is not liable for such losses in terms of 61(4) of the Consumer Protection Act.
17. **Patents** The Tendering Company indemnifies the Buyer and holds it harmless against any claim of infringement of letters patent, registered design, trade mark or copyright (registered at the date of the Contract) by the use of sale of any Products supplied by the Tendering Company to the Buyer in terms of the Contract and against all costs and damages which the Buyer may incur in any action for such infringement or for which the Buyer may become liable in any such action: provided that: the indemnity of the Tendering Company in terms of this clause 17 shall not apply to any infringement which is due to the Tendering Company having followed a design or instruction furnished or given by the Buyer or to the use or sale of such Products in a manner or for a purpose or in a country not specified by or disclosed to the Tendering Company by the Buyer at the time of tender, or to any infringement which is due to the use of sale of such Products in association or combination with any other Products not supplied by the Tendering Company; the Buyer gives the Tendering Company the earliest possible notice in writing of any claim being made or action threatened or brought against the Buyer in respect of any such infringement and that the Buyer permits the Tendering Company at the Tendering Company's expense to dispute, resist, appeal, compromise or settle such claim; and the Buyer on its part, warrants that any design or instructions furnished or given by the Buyer to the Tendering Company for the purposes of the supply of any Products by the Tendering Company to the Buyer in terms of the Contract shall not be such as will cause the Tendering Company to infringe any letters patent, registered design, trade mark or copyright in the execution of the Buyer's order. Subject to any third party rights other than those created by virtue of the Contract, to the extent that the provision of the Services and/or Products results in the creation of any intellectual property rights, such rights shall vest in the Tendering Company.
18. **Limitation of Liability** Save as otherwise explicitly stated in the Conditions and subject always to clause 22, in no event, whether as a result of breach of contract, indemnity, warranty, delict (including negligence), strict liability or any other cause arising, shall the Tendering Company's total liability to the Buyer or its insurers for any loss or damage arising out of, or resulting from these Conditions, or any Tender or any Contract or from the performance or breach thereof, or from the Products or Services furnished hereunder, exceed 15% (fifteen percent) of the total Contract Price. Furthermore, any liability or obligation of the Tendering Company of whatsoever nature (whether in terms of these Conditions or otherwise) shall terminate upon the expiration of the warranty period specified in clause 15. (For the purpose of this clause 18, the term "Tendering Company" shall include the Tendering Company's sub-contractors, agents and suppliers).

Such arbitration shall be held in Johannesburg unless otherwise agreed to and shall be held in a summary manner with a view to it being completed as soon as possible. There shall be one arbitrator who shall be agreed to by the parties in writing, and failing agreement within 5 (five) Business Days of the dispute first arising, shall be appointed by the President for the time being of the South African Institute of Electrical Engineers. The arbitrator shall have the powers conferred upon an arbitrator under the Arbitration Act, 1965, as amended, or re-enacted in some other form from time to time, but shall not be obliged to follow the procedures described in that Act and shall be entitled to decide on such procedures as he may consider desirable for the speedy determination of the dispute, and in particular he shall have the sole and absolute discretion to determine whether and to what extent it shall be necessary to file pleadings, make discovery of documents or hear oral evidence. The decision of the arbitrator shall be final and binding on the parties, and may be made an order of any court of competent jurisdiction. Unless otherwise stated in the Tender, the amount of all insurance, taxation, or other duties applicable to the manufacture and sale of Products or Services shall be borne by the Buyer. The Contract Price is based on the cost of materials, transport and labour ruling at the date of the Tender and, unless otherwise stated in the Tender, if between that date and the date of delivery, increases occur in these costs, then the Contract Price shall be accordingly increased to accommodate any such increases. Without prejudice to the right of the Tendering Company to claim any increased costs actually incurred by it, the Contract Price shall otherwise be adjusted in accordance with the contract price adjustment formulas specified in the Tender. In the event of any doubt or dispute regarding the application of any contract price adjustment formula in terms of 21 or where no formula is specified the appropriate Price Adjustment Formula of the Steel and Engineering Industries Federation of South Africa, shall apply. The Auditors, in making their determination in terms of this clause 21 shall act as experts and not as arbitrators and shall as soon as reasonably possible after receipt of the notice referred to in this clause 21 issue a certificate to both stating the amount of any adjustment of the Contract Price in terms of clause 21. The decision of the Auditors shall be final and binding on the parties.
22. **Consequential Damages** In no event, whether as a result of breach of contract, indemnity, warranty, delict (including negligence), strict liability or other cause arising, shall the Tendering Company be liable for any special, consequential, incidental or exemplary damages whether foreseeable or not including, but not being limited to, loss of profit or revenues, loss of use of the Products or any associated equipment, damage to associated equipment, cost of capital, cost of substitute Products, facilities, services or replacement power, downtime cost, or claims of customers of the Buyer for such damages. Should the Products or Services being provided by the Tendering Company in terms of these Conditions be provided, sold or otherwise made available by the Buyer to any third party, then the Buyer shall obtain from that third party a provision affording the Tendering Company the protection of this clause 22 vis-à-vis that third party, failing

23. **Shortage in Delivery** No claim for shortages in delivery or damages in transit shall be entertained by the Tendering Company unless the Tendering Company receives written notice of such shortages or damages from the Buyer within seven days after delivery or, in the event of non-delivery, within ten days of presentation of invoices to the Buyer by the Tendering Company. Where the Contract Price is stated to include delivery, the Tendering Company shall, at its option, repair or replace free of charge Products damaged in transit to the point of delivery only provided that the Tendering Company receives written notification of such damage from the Buyer within the time periods stipulated in this clause 23, whichever is applicable.

    - (i) Has not ceased to operate within a period of six months from the date upon which it arose, the Contract may be terminated by either party;
    - (ii) Affects the Buyer and not the Tendering Company, then the Buyer shall pay to the Tendering Company, on written demand, any and all costs and expenses thereby incurred by the Tendering Company during the period in which the Contract is suspended.
